Project Code: NYUU0017_w2
Project Name: NewsGuard Wave 2
Prepared for: Andy Guess
Interviews: 3337
Field Period:  June 19, 2020 - July 01, 2020
Project Manager: Sam Luks - 650.462.8009
================================================================================
```

YouGov interviewed 3337 respondents. The cases were weighted to the sampling
frame separately by treatment group using propensity scores. The cases and
the frame were combined and a logistic regression was estimated for inclusion
in the frame. The propensity score function included age, gender,
race/ethnicity, years of education, and region. The propensity scores were
grouped into deciles of the estimated propensity score in the frame and
post-stratified according to these deciles.

The weights were then post-stratified on 2016 Presidential vote choice, and
a four-way stratification of gender, age (4-categories), race (4-
categories), and education (4-categories), to produce the final weight.

```
